Higher Speed, No Dial-Up, Always On!  
Broadband Internet Service

## Additional Features Available

Features or services that can be added to your basic cable modem service:

- Additional e-mail addresses are 50¢ per month each (add as many as you like).
- Static IP available for \$10.00 per month.
- Domain Hosting is available through cPanel: 250MB for only \$8.00 per month.

## MyBackup

MyBackup provides automated data storage in a secure, remote location that prevents any loss of information due to computer or network failure. This data is stored on a single disk, so there is no need for thumb drives, and data is viewed as an additional drive on your desktop for ease of use. MyBackup can be accessed via the internet and provides flexible connection capabilities. Users can store, access and collaborate in any location. MyBackup additional data storage is available at the following rates:

1 GB Storage Space.....	\$2.00
5 GB Storage Space.....	\$5.00
10 GB Storage Space.....	\$10.00
20 GB Storage Space.....	\$20.00
50 GB Storage Space.....	\$50.00

## MySecurity

Stay in control of your computer with our advanced security protection software. Easy to download and install, and even easier to use. This security package automatically detects and prevents a wide variety of threats common on the Internet today. Monthly price is just \$4.95 per month per computer.

More information on these additional services is available at [www.ccmtc.com](http://www.ccmtc.com).

- **Spam:** Standard and enhanced protection with Google Postini
- **Mobile Applications:** Email, IM, calendar for many different handhelds integration w/Android, Blackberry & iPhones through apps
- **Docs (Document, Spreadsheet, and Presentation):** Create, manage, share, and collaborate on documents, spreadsheets, and presentations
- **Personal Web Space:** Google Sites – template driven pages with enhanced tools and controls; 1 GB combined storage for Docs and Sites
- **MyBackup:** 50MB of data storage space in a secure, remote location to protect your important data
- **Technical Support:** Help is available 24/7

## Higher Speed, No Dial-Up, Always On!

There is virtually no limit to the opportunities that high-speed access provides. Over the past year we have seen an explosion in the number of exciting new applications that depend on high-speed network access. Today you can email digital pictures to family and friends, enjoy things like streaming video and audio, online gaming with your friends down the street and around the world, downloading multi-megabyte files in seconds, downloading multiple files at the same time, web browsing at high speeds even during large downloads, viewing the latest in web content using exciting plug-ins — the possibilities are endless.
