Broadband Internet Service Ordering Information

To order Cable Modem Service, or to change your current service contact the Clear Creek Telephone & TeleVision business office:

Voice: (503) 631-2101

E-mail: info@clearcreek.coop

No matter what you want most from your Internet experience, you'll be instantly connected with Clear Creek Telephone & TeleVision's Broadband

Internet Service. This service keeps you connected to all of your online interests like music, movies, and shopping without dial-up waiting or those annoying busy signals.

You can play the latest games in real-time and watch streaming videos without interruption...all at amazingly fast speeds. You also can keep in touch by e-mail with up to 5 e-mail accounts that can be accessed remotely from any computer. The monthly rate starts at \$53.95.* Check out our great packages that combine cable television and Broadband Internet Service for discounted pricing!

*Includes \$3.00 per month cable modem lease. There is a one-time installation fee of \$50.00.

Installation

- The installation fee covers the cost of a cable television coax connection from the outside of your home or office to the location of your computer; and setup of the leased cable modem, and the Ethernet card and its installation if required.

Requirements

- Cable modem service is compatible with computers that use Windows 2000 and later, as well as Macintosh 8.6 or later. Clear Creek Telephone & TeleVision will provide all software needed to connect to cable modem service.
- System Requirements for Optimal Internet Experience:*
 - PC — Minimum Processor: 800 MHz
 - MAC — Minimum Processor: G3 or above
 - CD-ROM Drive
 - RJ-45 Ethernet Card or Open PCI Slot
 - Memory — 256MB RAM
 - Hard drive space — 5 GIG free
 - Users agree to Clear Creek Telephone & TeleVision's terms and conditions and acceptable use rules.

*Requirements may vary depending on operating system being used.

Features:

- **E-Mail:** Get up to 5 e-mail addresses that can be accessed remotely from any computer. Now everyone in the family can have their own e-mail address!
- **E-Mail Capacity:** Send email attachments up to 10MB
- **Speed:** Robust, reliable connections at speeds up to 8Mbps download and 2Mbps upload
- **Connection:** Always-On
- **Nationwide Access:** Wherever you may be you can connect to the Internet using Web-ster. Whether you're on a business trip or headed to the desert for the winter, you can get online with the same reliable Internet service you enjoy at home. Follow the easy instructions provided at <http://support.web-ster.com/> and you can dial-up the Internet from almost anywhere without paying expensive long distance charges.
- **Web Messaging:** With Web Messaging from Web-ster, you can check your emails from any computer with Internet access, anywhere in the world! Web Messaging is a free service that comes with any Web-ster Internet account. With Web-ster you are always connected. From your Internet browser window, simply go to mail.ccwebster.net and log in.
- **Free Spam/Virus Filtering:** Customizable and easy to use, this service greatly reduces the amount of spam and viruses
- **Web Space:** Up to 25MB of online space so you can build a home page that highlights your interests, photos and favorite links
- **Dynamic IP Address:** One IP address included with each account
- **Technical Support:** Help is available 24/7

*Actual speed is dependent on many factors. Please talk to one of our qualified Customer Service Representatives for more information.

- Local office with a staff committed to providing the best possible on-line experience
- Billed on your Clear Creek Telephone & TeleVision bill

Higher Speed, No Dial-Up, Always On!

There is virtually no limit to the opportunities that high-speed access provides. Over the past year we have seen an explosion in the number of exciting new applications that depend on high-speed network access. Today you can email digital pictures to family and friends, enjoy things like streaming video and audio, online gaming with your friends down the street and around the world, downloading multi-megabyte files in seconds, downloading multiple files at the same time, web browsing at high speeds even during large downloads, viewing the latest in web content using exciting plug-ins — the possibilities are endless.
